

Chiara Poletto

Researcher (Chargée de Recherche)

Institut Pierre Louis d'Epidémiologie et de Santé Publique

INSERM & Sorbonne Université

Address: site Hôpital St Antoine, room 802

27 rue Chaligny, 75012, Paris, France

Website: <https://chiara-poletto.github.io/>

Twitter: [@chpoletto](https://twitter.com/chpoletto)

E-mail: chiara.poletto@inserm.fr

Ph: +33 1 44738436

Fax: +33 1 44738462

Current position

Oct 2015 – present: Researcher (Chargée de Recherche) at the Institut Pierre Louis d'Epidémiologie et de Santé Publique, UMR S 1136, INSERM and Sorbonne Université, Paris, France

Education

- 27 Mar 2009: PhD in Physics, Physics Department G. Galilei, University of Padua, Italy. Thesis: *Solvent induced interactions in biopolymers: origin of secondary motifs*, supervisor Prof. Amos Maritan
- 22 Mar 2005: Degree in Physics, Physics Department G. Galilei, University of Padua, Italy. Marks 110/110 *cum laude*

Professional Experience

- Fall 2019, fall 2020, fall 2021: visiting professor Physics Department G. Galilei, University of Padua
- Jan 2014 – Sep 2015: Post Doc at the Institut Pierre Louis d'Epidémiologie et de Santé Publique, UMR S 1136, INSERM and Sorbonne Université, Paris, France
- Sep 2012 – Dec 2013: visiting researcher at the Institut Pierre Louis d'Epidémiologie et de Santé Publique, UMR S 1136, INSERM and Sorbonne Université, Paris, France
- Feb 2009 – Dec 2013: Post Doc at ISI Foundation, Turin, Italy
- Jan 2006- Mar 2009: PhD in Physics, Physics Department G. Galilei, University of Padua
- May 2005 - Oct 2005: Research appointment, Physics Department G. Galilei, University of Padua

Other relevant information

- May 2017 – Sep 2017: maternity leave

Awards and Honours

- Aug 2020: Invitation to the Riyadh Global Digital Health Summit, G20 presidency associated event, Riyadh, Saudi Arabia (online) 11-12 Aug, 2020. Invited speaker, co-chair of a session and member of the expert panel to build the Riyadh declaration on the future of Digital Health.

- Jan 2019: Recipient of the Émergence de la Ville de Paris grant
- Sep 2015: Junior Scientific Award of the Complex Systems Society (CSS). The award is aimed at recognizing extraordinary scientific achievements by CSS young researchers (within 7 years of PhD competition)
- Sep 2014: Invitation in the contest of the Young Scientist Program to co-chair the session of Mathematical Modelling at the 5th ESWI (European Scientific Working group on Influenza) Conference, Riga, Sept 14-17 2014. Travel grant to participate to the conference

Funding

Grants as PI:

- Apr 2020 – Apr 2021: ANR Flash Covid-19, NoCOV, Nowcasting and forecasting the COVID19 epidemic in the French general population, 55.3K
- Jan 2019 – Dec 2022: Emergence de la Ville de Paris, CompFlu, Advanced computational approaches for the integrative study of virological, epidemiological and socio-demographic drivers of influenza, 210K
- Jan 2017 – Jun 2018: Emergence @ Sorbonne Universités, SU-16-R-EMR-48, FluDE, Joint modelling of influenza diffusion and evolution: a data driven computationally intensive approach, 67.2K
- Jan 2017 – Dec 2017: mobility grant PHC Galileo, 37414WD, Mapping the risk of zoonotic emergence: a network perspective, 6K

Other grants:

- Jan 2020 – Dec 2023: H2020, 874850, MOOD, Monitoring outbreak events for disease surveillance in a data science context, role task leader
- Fen 2020 – Feb 2022: H2020, 101003589, RECOVER, Rapid European SARS-CoV-2 Emergency Research response, role participant
- Feb 2020 – Jan 2021: Reacting INSERM, role participant
- Jan 2016 – Dec 2017: mobility grant PHC Tournesol, 35686NE, Quantifying the impact of school holidays and week-ends on the spread of ILI: a multiscale approach, role co-PI.
- Jan 2016 – Dec 2017: mobility grant PHC Procope, 35473TK, Optimal strategies for disease control in temporal networks, role co-PI
- Jan 2013 – Dec 2016: EC ANIHW, 13-ANWA-0007-03, LIVEpi, Prediction and control of vector- and movement-borne livestock epidemics, role key personnel
- Jan 2012 – Dec 2016: ANR (French National Agency for Research), n.ANR-12-MONU-0018, HARMSFLU, Harmonizing multiple scales for data-driven computational approaches to the modeling of influenza spread, role key personnel
- Jan 2007 – Dec 2013: FP7, 278433, Predemics, Preparedness, Prediction and Prevention of Emerging Zoonotic Viruses with Pandemic Potential using Multidisciplinary Approaches, role key personnel

Fellowships:

- Sep 2012-Mar 2013: Post-Doctoral Fellowship funded by the French Embassy in Italy and the Italian Ministry of Foreign Affairs for carrying out a 6-months research project at INSERM UMR S 707, Paris
- Jun 2010: travel grant to the Summer Institute in Statistics and Modelling of Infectious Diseases 2010, funded by the School of Public Health, University of Washington
- Sep 2009: travel grant to the European Conference of Complex Systems 2009, funded

by ASSYST

- Jan 2006-Mar 2009: Doctoral Fellowship, Physics Department G. Galilei, University of Padua
- May 2005-Oct 2005: Fellowship associated to the project Protein Physics, Physics Department G. Galilei, University of Padua

Outcome of the Complexity 72h workshop (2018). Working groups under the supervision of a tutor are asked to realize a research project – from conception to posting on arxiv – in 72 hours. I was invited to be tutor at the event.

Committees

Program committees:

1. Conference of Complex Systems 2021, Lyon, France, Oct 25-29, 2021
2. The 8th International Conference on Complex Networks and their Applications, Madrid, Spain, Dec 1-3, 2020
3. International School and Conference on Network Science 2020, Rome, Italy July 6-10, 2020
4. CompleNet 2020, Exeter, UK Mar 31- Apr 3 2020
5. The 8th International Conference on Complex Networks and their Applications, Lisbon, Portugal, Dec 10-12, 2019
6. Conference on Complex Systems 2019, Singapore, 30 Sept- 4 Oct 2019.
7. International School and Conference on Network Science 2019, Burlington, VT, US May 27-31, 2019
8. International Conference on Complex Systems 2018, in Cambridge, MA, US, July 22-27, 2018.
9. Conference on Complex Systems 2018, Thessaloniki, Greece, 23-28 Sept 2018.
10. The 7th International Workshop on Complex Networks and their Applications, Cambridge UK, 11-13 Dec, 2018.
11. The 6th International Workshop on Complex Networks and their Applications, Lyon France, Nov 29-Dec 1, 2017.
12. Conference of Complex Systems 2017, Cancun, Mexico 17-22 Sep 2017.
13. 8th Conference on Complex Networks, Dubrovnik Croatia 21-24 Mar, 2017
14. International School and Conference on Network Science (Winter edition), Tel Aviv Jan 15-18, 2017
15. 2nd International Conference on Complexity, Future Information Systems and Risk, Porto, Portugal 24-26 Apr 2017
16. Satellite Meeting, Digital Epidemiology and Surveillance. Conference of Complex Systems 2016, Amsterdam, 20 Sep, 2016

17. The 5th International Workshop on Complex Networks and their Applications, Nov 30-Dec 2 2016, Milan Italy.
18. Conference of Complex Systems 2016, Amsterdam, The Netherlands 19-22 Sep 2016.
19. CompleNet 2016 (7th workshop on complex networks), Dijon, France 23-25 Mar, 2016.
20. Complex Networks: from theory to interdisciplinary applications, satellite meeting of Statphys26, Marseille, France 11-13 July, 2016.
21. International School and Conference on Network Science, Zaragoza, Spain 1-5 Jun 2015.
22. 5th ESWI (European Scientific Working group on Influenza) Conference, Riga, Latvia 14-17 Sep 2014.
23. Satellite Meeting, Temporal and Dynamic Networks: From Data to Models. International School and Conference on Network Sciences 2013, Copenhagen 3-4 Jun, 2013
24. European Conference of Complex Systems 2011. Vienna, 12-16 Sep, 2011

Scientific committees:

1. Complex Networks Thematic School, Les Houches, 7-18 Apr, 2014

Organising committees of international conferences/workshops:

1. Conference of Complex Systems 2021, Lyon, France, Oct 25-29 2021, role Satellite co-chair.
2. Satellite Meeting, Networks in disease ecology: modeling interacting pathogens, multiple host layers, and evolution. International School and Conference on Network Sciences 2018, Paris, 11 June 2018
3. Satellite Meeting, Modelling of Disease Contagious processes 6st edition. Conference of Complex Systems 2017, Cancun, 20-21 Sep, 2017
4. Satellite Meeting, Modelling of Disease Contagious processes 5st edition. Conference of Complex Systems 2016, Amsterdam, 21 Sep, 2016
5. Satellite Meeting, Modelling of Disease Contagious processes 3rd edition. European Conference of Complex Systems 2014, Lucca, 25 Sep, 2014
6. Satellite Meeting, Modelling of Disease Contagious processes 2nd edition. European Conference of Complex Systems 2013, Barcelona, 18 Sep, 2013
7. Satellite Meeting, Temporal and Dynamic Networks: From Data to Models. International School and Conference on Network Sciences 2013, Copenhagen 3-4 Jun, 2013
8. Satellite Meeting, Data Driven Modelling of Contagious Processes. European Conference of Complex Systems 2012, Brussels, 5 Sep, 2012

Organising committees of periodic seminars:

1. Seminar series SaMMBA, Statistical and Mathematical Modeling in Biological Applications, Pasteur Institute, Paris, France.

Academic services

Editor activity:

1. Guest Editor, call for paper Epidemics Dynamics & Control on Networks, Applied Network Science.
2. Academic editor of PLOS ONE
3. Editor of PLOS Complexity Channel, channels.plos.org/complexity (2018-2020)

Referee activity for peer-reviewed journals:

Science, Nature, Proceedings of the National Academy of Sciences of the United States of America, Science Advances, Applied Network Science, Scientific Data, Nature Physics, Physics Review X, Nature Communications, PLoS Computational Biology, Eurosurveillance, Physical Review Letters, PLoS ONE, Scientific Reports, Journal of Theoretical Biology, Mathematical Biosciences, PLoS Currents, BMC Infectious Diseases, BMC Research Notes, Proceedings of the Royal Society B, Proceedings of the Royal Society Interface, Royal Society Open Science, Influenza and Other Respiratory Viruses, Virology Journal, Physical Review E, EP J Data Science, European Journal of Physics B, Europhysics Letters, Journal of Statistical Mechanics: Theory and Experiment, New Journal of Physics, Journal of Computational Science, Enterprise Information Systems, International Journal of Bifurcation and Chaos, Peer J.

Referee activity for funding programs:

French National Research Agency, European Science Foundation, Medical Research Council

Other academic services:

- 2015-2019: Management Committee Substitute for France in the COST Action CA15109, *European Cooperation for Statistics of Network data science* (2015-2019)
- 2015-2020: Elected member of the council of the Complex Systems Society
- 2015-2020: Elected member of the steering committee of the Conference on Complex Systems

Activities for expertise to governmental authorities/institutions:

1. Member of Vaccines Task Force, Haute Autorité de Santé, part of WP3 “Modelling”, COVID-19 outbreak 2020
2. Member of the working group for the development of the contact tracing app, part of WP4 “Health models” lead by INSERM, COVID-19 outbreak 2020
3. Member of the “Reacting” working group for risk assessment on the 2020 COVID-19 outbreak
4. Member of the modelling working group for risk assessment on the 2014 Western Africa Ebola outbreak for the Haute Conseil de la Santé Publique
5. Member of the modelling working group for risk assessment on the 2013 MERS-CoV outbreak for the Institut de Veille Sanitaire
6. Member of the “Reacting” working group for risk assessment on the 2014 Chikungunya outbreak in Saint Martin Island for the Institut de Veille Sanitaire and the Direction Generale de la Santé
7. Expert advice to the Institut de Veille Sanitaire for the design of a national influenza pandemic exercise

Supervision

Post Doc/ Research assistants:

1. 2021 – 2022: Pourya Toranj Simin, Research Assistant, project CompFlu
2. 2020 – 2021: Rania Assab, Post Doc, projects NoCOV
3. 2017 – 2020: Piotr Bentkowski, Post Doc, projects FluDE and CompFlu
4. Fall 2019- spring 2020: Francesco Pinotti, Post Doc, projects CompFlu

PhD:

1. 2021 – 2024: Benjamin Faucher, PhD student at the Doctoral School of Public Health Sorbonne University
2. 2020 – 2023: Francesco Bonacina, PhD student at the Doctoral School Mathematical Sciences Paris-Centre
3. 2016 – 2019: Francesco Pinotti, PhD student at the Doctoral School of Public Health, Université Pierre et Marie Curie

Bachelor and master degree:

1. Benjamin Faucher, internship for M2 Physics and Biophysics at ENS de Lyon and Paris Diderot University (2021)
2. Co-supervisor of Federico Zabeo, thesis of master degree in Mathematics, Padova University, Italy (2020).
3. Beatriz Arregui-García, internship for M2 Systems Complexes Université Paris Saclay, (2020)
4. Jesús A. Moreno López, internship for M2 Systems Complexes Université de, (2020)
5. Fabio Mazza, internship for M2 Systems Complexes Université Paris Diderot – Paris 7, (2019)
6. Francesco Pinotti, Internship of the double degree program in Physics, Université Paris SUD, Paris, France & University of Ferrara, Italy, (2016)
7. Sara Andraghetti, thesis of master degree in Mathematics, University of Turin, Italy (2015)
8. Gino Almondo, thesis of bachelor degree in Physics, University of Turin, Italy, (2012)

PhD students' committees

1. Thesis advisory committee of Reyné Bastien, PhD School GAIA, Montpellier University 2021 – 2023
2. Graduate committee of Xavier R. Hoffmann, PhD School in Physics, Universitat de Barcelona (2021)
3. Graduate committee of Mattia Mazzoli, PhD School in Physics, Universitat de les Illes Balears (2021)
4. Graduate committee of Trevor Shoemaker, PhD School GAIA, Montpellier University (2019)
5. Thesis advisory committee of Jonathan Bastard, PhD School “Frontières du Vivant”, Paris Diderot University, 2018 – 2020
6. Graduate committee of Julie Fournet, PhD in Theoretical Physics and Mathematics University Aix-Marseille (2016)
7. Graduate committee of Lorenzo Argente, PhD in Complex Systems for Life Science University of Torino (2015)

Teaching

Invited lectures at International Schools:

1. Qlife Quantitative Biology Winter School : Quantitative Viral Dynamics Across Scales, Paris, France Mar 21-25, 2022
2. Winter Workshop on Complex Systems 2019, Zakopane, Poland Feb 4-8, 2019
3. Tehran school on Theory and Applications of Complex Networks, Tehran, Iran, Aug 25-29, 2018
4. International School and Conference on Network Science, Paris, France, Jun 11-15, 2018

5. Workshop Complexity 72h, Lucca, Italy, May 7-11, 2018.
6. CCS Warm-up, III School on Complex Systems, Amsterdam, Netherlands, Sep 16-18, 2016

Courses and lectures at master programs:

1. Contract professor for the course *Life data epidemiology*. Master degree in Physics of Data, University of Padova. Academic years: 2019 – 2020 (24 hours); 2020 – 2021 (24 hours, responsible of the course); 2021 – 2022 (48 hours, responsible of the course)
2. Lecture “Mixing: from random to realistic networks” of the course *Modelling of Infectious Diseases* organized by Pasteur-Cnam School of Public Health, Paris. Years: 2016, 2017, 2018
3. Teaching Assistant of the course *Complexity in Social Systems*. Graduation Degree in Physics, University of Turin. 2010 – 2011 a. y.

Tutor activities:

1. Tutor of the courses *Foundations of Physics I* and *Mathematical Analysis I*, bachelor degrees in Material Science and in Optics and Optometry, University of Padua, Italy, 2006 – 2007 and 2007 – 2008 a. y.s, 200 hours in total.

Invited talks at conferences and workshops

1. Diversity in humans and pathogens: implications for the dynamics of epidemics and the impact of interventions, *Conference of Complex Systems 2020*, online 7-11 Dec 2020.
2. Individual heterogeneities and multi-layer connectivity in the spread of epidemics, *Multilayers and Beyond, Satellite of NetSci2020*, Rome (online) 18 Sep, 2020.
3. Data Driven Analysis of the Global COVID-19 Dissemination, *Riyadh Global Digital Health Summit, G20 presidency associated event*, Riyadh, Saudi Arabia (online) 11-12 Aug, 2020.
4. Invitation to the *Institute for Infectious Disease modelling Symposium*, Seattle, USA, 20-22 Apr 2020 (canceled due to the coronavirus outbreak)
5. Invitation to the *School and Workshop on Plasmids as Vehicles of Antimicrobial Resistance Spread*, International Center for Theoretical Physics, Trieste, Italy Mar 2-6, 2020 (canceled due to the coronavirus outbreak)
6. Host contact dynamics shapes richness and dominance of pathogens strains, *11th Conference on Dynamical systems applied to biology and natural sciences (DSABNS)*, Trento, Italy, Feb 4-7, 2020.
7. Multi-pathogen co-circulation on networks: capturing the complexity of pathogen ecology *10th International Conference on Complex Networks (CompleNet'19)*, Tarragona, Spain, Mar 18-21, 2019. Springer Complexity Seminar.
8. Accounting for variable and heterogeneous human behaviour in the assessment of an epidemic, *13th SICC International Workshop, Topics in Nonlinear Dynamics: complexity and the city*, Torino, Italy, Oct 29-30, 2018.
9. *International Conference on Control of Complex Systems and Networks*, Heringsdorf, Usedom, Germany, Sep 4-8, 2016
10. Dynamical model of Middle East Respiratory Syndrome spread: uncovering ecological and behavioural drivers of propagation of an emerging disease, *Journées GDR Statistique et Santé & Société Française de Biométrie*, Lyon, France, 27-28 Jun, 2016.

11. Assessing the vulnerability to infections of time-evolving contact networks, MBI workshop *Generalised network structures and dynamics*, Columbus OH, United States, 21-25 March, 2016.
12. Multi-pathogen competition and persistence in a spatially structured environment, Satellite Meeting *Modelling of Disease Contagious processes 4th edition* of the *Conference of Complex Systems 2015*, Tempe, AZ, United States, 30 Sep 2015.
13. Host mobility drives pathogen competition in spatially structured populations, *Simulation Models of Infectious Diseases*, Antwerp, Belgium 17-18 Apr 2013
14. Epidemic spreading on time-varying networks of human contacts, *Statistical Network Science*, Leiden, Netherland, 2-5 Apr 2013
15. Multiscale Networks and the spatial spread of infectious diseases, *Dagstuhl Seminar "Data Mining, Networks and Dynamics"*, Dagstuhl School, Germany, 6-11 Nov 2011
16. Multiscale Networks and the spatial spread of infectious diseases, *SIAM Conference on Application of Dynamics Systems*, Snowbird, Utah, United States, 22-26 May 2011
17. Human mobility, a key ingredient of global epidemic models: the case of the H1N1 pandemic, *Recent approaches in modelling animal infectious diseases*, Teramo, Italy, 28-30 Sep 2010

Invited seminars

1. Diversity in humans and pathogens: implications for the dynamics of epidemics and the impact of interventions, NEDO Seminar (online), IMT School for Advanced Studies, Lucca, Italy 9 Apr 2021
2. COVID-19 vaccination strategies targeting workplaces and schools, ModCov19 seminar series (online) Paris, France, 9 Mar 2021
3. Anatomy of digital contact tracing: role of age, transmission setting, adoption and case detection, Isaac Newton Institute for Mathematical Sciences. Infectious Dynamics of Pandemics Seminar cycle. Cambridge, UK (online) 25 Aug 2020
4. Host contact dynamics shapes richness and dominance of pathogen strains: implication for the spread of *Staphylococcus Aureus* in hospital settings, Department of Physics G. Galilei University of Padova, Padova 18 Dec 2019
5. Accounting for variable and heterogeneous human behaviour in the assessment of an epidemic, Centre for Research and Interdisciplinarity, Paris 28 Feb 2019
6. Spatial spread of emerging diseases: epidemic assessment and risk of international spread, INSERM & Université Paris Diderot Infection Antimicrobials Modelling Evolution (IAME), Paris 17 Nov 2016
7. Modelling disease spatial spread and real time assessment of emerging pathogen events, SaMMBA (Statistical and Mathematical Modelling in Biological Applications) Seminar series, Institut Pasteur, Paris, 8 Oct, 2014
8. Impact of heterogeneous features of hosts and pathogens on the spatial spread of epidemics, College of Medical, Veterinary & Life Sciences University of Glasgow. 29 May, 2014
9. Impact of heterogeneous features of hosts and pathogens on the spatial spread of epidemics, Department of Mathematics, University of Oxford, UK. 7 May, 2014
10. Network-based approaches for the spatial spreading of communicable diseases Laboratoire de Biométrie et Biologie Évolutive CNRS 5558, Lyon, France, 18 Apr, 2014
11. Impact of heterogeneous features of hosts and pathogens on the spatial spread of epidemics, London School of Hygiene and Tropical Medicine, London, UK. 3 Apr, 2014

12. Impact of heterogeneous features of hosts and pathogens on the spatial spread of epidemics, Institute for Biocomputation and Physics of Complex Systems BIFI, University of Zaragoza, Zaragoza, Spain. 12 Sep 2013
13. Impact of heterogeneous features of hosts and pathogens on the spatial spread of epidemics, CNRS and Centre de Physique Théorique (CPT), Marseille, France. 27 Mar, 2013
14. Impact of heterogeneous features of hosts and pathogens on the spatial spread of epidemics, Institute for Cross-Disciplinary Physics and Complex Systems (IFISC), University of Balears. Palma de Mallorca, Spain. 2 Oct, 2012
15. Heterogeneous human mobility behaviour and the spatial spread of infectious diseases, Department of Physique, University de Padua, Padua, Italy Apr 2012
16. Impact of human behaviour and mobility on the geographical spread of infectious diseases: implication for epidemic containment, INSERM UMR-S 707, Paris, France, 21 Nov, 2011
17. Human mobility in emerging epidemics: a key aspect for response planning, Institut Rhônealpin des Systèmes Complexes (IXXI), Lyon, France, Jul 2010
18. Emergence of secondary motifs in tube-like polymers in a solvent, Max Planck Institut für Metallforschung, Stuttgart, Germany, Oct 2008
19. Emergence of secondary motifs in tube-like polymers in a solvent, International School for Advanced Studies, Trieste, Italy, Jul 2008
20. Emergence of secondary motifs in tube-like polymers in a solvent, ISI Foundation, Turin, Italy, Jul 2008

Contributed oral presentations at international conferences

1. Non-neutral theory of competing SIS processes on temporal networks, F. Pinotti, C. Poletto *NetSci2020*, Rome (online) 21-25 Sep, 2020
2. Evaluating the impact of digital contact tracing and household isolation on the COVID19 epidemic, Jesús A. Moreno López, Beatriz Arregui García, Piotr Bentkowski, Livio Bioglio, Francesco Pinotti, Pierre-Yves Boelle, Alain Barrat, Vittoria Colizza and Chiara Poletto, *NetSci2020*, Rome (online) 21-25 Sep, 2020
3. Host contact dynamics shapes richness and dominance of pathogen strains C. Poletto, F. Pinotti, E. Fleury, D. Guillemot, P.-Y. Boëlle, *Epidemics*7, Charleston SC, USA 3-6 Dec, 2019
4. Integrating dynamical modelling and phylogeographic inference to uncover the drivers of global influenza circulation C. Poletto, T. Bedford, M. Suchard, V. Colizza, P. Lemey, *Epidemics*6, Sitges Spain, 29 Nov - 1 Dec, 2017
5. Emerging pathogen threats: risk assessment in the era of global awareness and response, CCS'16 Satellite *Digital Epidemiology and Surveillance*, Sep 20, 2016, Amsterdam
6. Analytical computation of the epidemic threshold on temporal networks: impact of immunity and latency period, C. Poletto, E. Valdano, V. Colizza, *Complex Networks from theory to interdisciplinary applications 2016*, Marseille July 11-13, 2016
7. Discrete vs. Continuous time formulation of the epidemic threshold on a temporal network, C. Poletto, E. Valdano, V. Colizza, *International School and Conference on Network Sciences 2016*, Seoul, Korea May 30-Jun 3, 2016
8. Quantifying spatiotemporal heterogeneity of MERS-CoV transmission in the Middle East region: a combined modelling approach, C. Poletto, V. Colizza, P.Y. Boëlle, *Epidemics*⁵, Clearwater Beach FL, United States, 1-4 Dec 2015

9. Competing spreading processes on temporal networks, C. Poletto, S. Andraghetti, A. Darbon, E. Valdano, M. Tizzoni, V. Colizza, *Conference on Complex Systems 2015*, Tempe AZ, United States, 28 Sep-2 Oct 2015
10. Analytical Computation of the Epidemic Threshold on Temporal Networks, C. Poletto, E. Valdano, L. Ferrei, V. Colizza, Recognizing the Relevance of Change: Analysis and Control of Time-evolving Networks in Epidemiology and Evolutionary Medicine, Berlin, Germany 20-22 July 2015
11. Global reaction to the 2014 West Africa Ebola epidemic: modification of the global air-travel network and its impact on the international epidemic spread, C. Poletto, M. F. C. Gomes, A. Pastore y Piontti, L. Rossi, L. Bioglio, D. L. Chao, I. M. Longini, M. E. Halloran, V. Colizza A. Vespignani, *International Conference of Computational Social Science*, Helsinki, Finland, 8-11 Jun 2015
12. Competing spreading processes on temporal networks, C. Poletto, S. Andraghetti, A. Darbon, E. Valdano, M. Tizzoni, V. Colizza, *International School and Conference on Network Sciences 2015*, Zaragoza, Spain, 1-5 Jun 2015
13. Monitoring influenza syndrome and influenza-related behaviour in France through a participatory system: 3 years of Grippenet.fr, C. Poletto, *5th International Conference on Digital Health*, Florence, Italy 18-20 May 2014
14. Monitoring influenza syndrome and influenza-related behaviour in France through a participatory system: 3 years of Grippenet.fr, C. Poletto, *3rd International Conference on Digital Disease Detection*, Florence, Italy 21-22 May 2014
15. Persistence of rapidly mutating pathogens on a metapopulation network, A. Aleta, A. Hisi, C. Poletto, S. Meloni, Y. Moreno, V. Colizza *European Conference of Complex Systems 2014*, Lucca, Italy, 22-26 Sep 2014
16. Une approche intégrative pour la caractérisation initiale de l'épidémie due au virus MERS-CoV, C. Poletto, C. Pelat, D. Levy-Bruhl, Y. Yazdanpanah, P-Y. Boëlle, V. Colizza, *VI^e Congrès International d'Épidémiologie - ADELFI – EPITER*, Nice, France, 10-12 Sep 2014
17. Persistence of rapidly mutating pathogens on a metapopulation network, A. Aleta, A. Hisi, C. Poletto, S. Meloni, Y. Moreno, V. Colizza *International School and Conference on Network Sciences 2014*, Berkely, United States, 2-6 Jun 2014
18. Host mobility drives pathogen competition in spatially structured populations, C. Poletto, S. Meloni, V. Colizza, Y. Moreno, A. Vespignani *European Conference of Complex Systems 2013*, Barcelona, Spain, 16-20 Sep 2013
19. Host mobility drives pathogen competition in spatially structured populations, C. Poletto, S. Meloni, V. Colizza, Y. Moreno, A. Vespignani *International School and Conference on Network Sciences 2013*, Copenhagen, Denmark, 3-7 Jun 2013 selected as "ignite talk"
20. Host mobility drives pathogen competition in spatially structured populations, C. Poletto *MISMS Research Workshop on Influenza at the animal-human interface*, Padua, Italy Feb 25-Mar 1, 2013
21. Heterogeneous human mobility behaviour and the spatial spread of infectious diseases, C. Poletto, M. Tizzoni, A. Apolloni, V. Colizza *European Conference of Complex Systems 2012*, Brussels, Belgium, 3-7 Sep 2012. Selected for the plenary section
22. Human travel and time spent at destination: impact on the epidemic invasion dynamics, C. Poletto, V. Colizza *International School and Conference on Network Sciences 2011*, Budapest, Hungary, 6-10 Jun 2011

23. Human mobility in emerging epidemics: a key aspect for response planning, C. Poletto, P. Bajardi, V. Colizza, J. J. Ramasco, M. Tizzoni, A. Vespignani. *American Physical Society March meeting*, Portland, United States, 21-25 Mar 2010
24. Seasonal transmission potential of the new influenza A H1N1 : a Monte Carlo likelihood analysis based on human mobility, C. Poletto, D. Balcan, H. Hu, B. Goncalves, P. Bajardi, J.J. Ramasco, D. Paolotti, N. Perra, M. Tizzoni, W. Van den Broeck, V. Colizza, A. Vespignani. *European Conference of Complex Systems 2009*, Coventry, United Kingdom, 13-17 Sep 2009
25. Emergence of secondary motifs in tube-like polymers in a solvent, C. Poletto, *Entropy in Biomolecular Systems*, Split, Croatia, 10-16 Aug 2008

Oral presentations at national meetings

1. Assessment of the MERS-CoV epidemic situation in the Middle East region, C Poletto, C. Pelat, D. Levy-Bruhl, Y. Yazdanpanah, P-Y. Boelle, V. Colizza, *Séminaire scientifique InVS & UMR S 707 – Edition 2013*. Paris, France 11 Dec 2013
2. Age-specific contacts and travel patterns in the spatial spread of 2009 H1N1 influenza pandemic, C. Poletto, A. Apolloni, V. Colizza *Séminaire scientifique InVS & UMR S 707 – Edition 2012*. Paris, France 14 Nov 2012

Dissemination

Writing:

1. Popular article in The Conversation France, [Covid-19 : les applications de suivi des contacts sont efficaces pour limiter le nombre d'infections](#), 19 May 2021

Speaking:

1. Table ronde « Assurabilité et nouveaux risques systémiques », Forum virtuel Cap Actuariat, June 16, 2021
2. Invited talk at *La scienza in un bicchiere*, series of dissemination lectures, Castelfranco Veneto, Italy, Feb 20, 2015

Organization of events:

1. Organiser of *Databeers Paris*, Series of scientific dissemination events about data sciences (2018-2019)

Media Coverage

Selected media coverage related to the coronavirus outbreak:

1. Le Monde, [Contre le Covid-19, l'utilité des applications de traçage des cas contacts impossible à mesurer](#), 21 May 2021
